

GEventBase::init

```
graph LR; A[GEventBase::init] --> B[GEventBase::run]
```

A diagram showing a sequence of two operations. The first operation, 'GEventBase::init', is contained within a gray rectangular box with a black border. A blue arrow points from the right side of this box to the left side of a second rectangular box. The second box is white with a black border and contains the text 'GEventBase::run'.

GEventBase::run
